Air purifier-NVKJ488FK08A

Sensitive to capture pollution invisible sweet guardian

Eliminating particulates in the air

Eliminating pollutant in the gas

Eliminating pollutants such as microorganisms

nextview®
health is wealth

Why using air purifier?

Automobile exhaust emission

New house decoration pollution

Industrial waste gas pollution

There are smokers at home

Because the air is getting worse

Family pet odors

Acarid in the quilt

Floating dust

Pollen allergens

Because indoor pollution is more worse than outdoor pollution

According to statistics:

there are 100,000 people died from asthma/ cancer/ leukemia/pulmonary tuberculosis and so on because of air pollution every year.

100，000人

In recent years, leukemia patients caused by indoor air pollution is up to eighty percent in China

80%

Don't let yourself and your family be filter

Indoor air pollution is 2 to 5 times of outdoor air pollution, sometimes even 100 times!

PM2.5
Formaldehyde
Bacterium virus
Secondhand smoke
Kitchen Lampblack
Mite
Smell
Pollen original

Damage:

- 🟥 The respiratory tract is not smooth, fetal anomaly, children leukemia
- ⬛ Interfering with the normal biochemical reaction of body, damaging cells
- 🟧 Causing headaches, chest distress, eye itching, nasal congestion and tinnitus
- 🟩 Damaging respiratory system, circulatory system, digestive system, nervous system
- 🟨 Damaging hemoglobin’ s ability of delivering oxygen
- 🟪 Causing acute coronary heart disease (CHD), memory deterioration
- 🟪 Causing allergic asthma, skin disease
- 🟦 Sneezing, watery rhinorrhea, eye itching, ear itching, palate itching

We need fresh air in our lives

Breathing fresh air
making children grow sturdily

breathing fresh air
giving birth to a healthy baby

Breathing fresh air
work energetic

breathing fresh air
healthier body

Helps you solve above problems

Making everyone breath fresh air

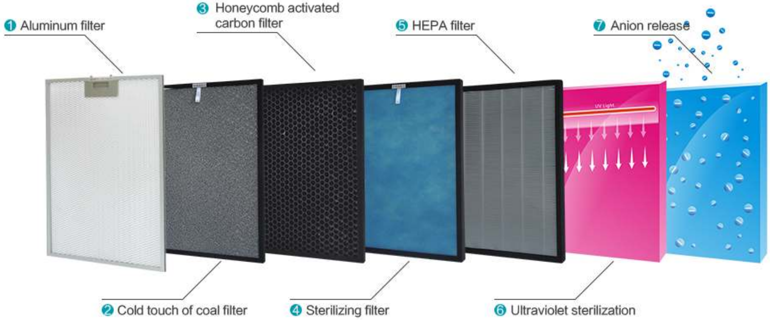
- Intelligent PM2.5 particle sensor
- Real-time display PM2.5 quantitative value
- Remind time of changing filter
- Child lock
- Touch control panel
- Charge device remote control

Model No.	NVKJ488FK08A	Voltage	220V 50Hz
Weight	10KG	Power	85W
CADR	450 m3/h	Applicable area	54–80㎡
Size	400*230*620	Option	Humidifying atomization

Seventh purification allows for further fine



❶ Aluminum filter
❸ Honeycomb activated carbon filter
❺ HEPA filter
❼ Anion release
UV Light
❷ Cold touch of coal filter
❹ Sterilizing filter
❻ Ultraviolet sterilization

	1.Aluminum filter Filter dust particles more than 5 micron meters, can clean many times.	
2.Cold touch of coal filter Absorbing and decomposing formaldehyde, benzene and TVOC.	**3.Honeycomb activated carbon filter** Rapidly adsorbing odor, decomposing formaldehyde, benzene , ammonia and second hand smoking.	**4.Sterilizing filter** Eliminating floating dust particles, acarid, microorganism
5.HEPA filter Eliminating mold, dust, allergen and virus	**6.Ultraviolet sterilization** Eliminating virus, bacteria and so on quickly.	**7.Anion release** Improving air quality, multiple health care functions.

Intelligent sensor system

It can automatically adjust air purification system according to the space’s air quality

It can adjust fan speed according to the air quality, quality display:

Bad（Red） | Ordinary（Yellow） | Good（Green）

Humidification Function

The machine has a humidification function, in the dry weather can open the humidification function.

The functions of humidification:

1. Increase air humidity and improve people's breathing quality. Effectively remove the air in the musty, smoke and odor, so that the air is more fresh.
2. moisturize the skin,more beauty.
3. To promote human facial cell blood circulation and metabolism, relieve nervous tension, eliminate fatigue.
